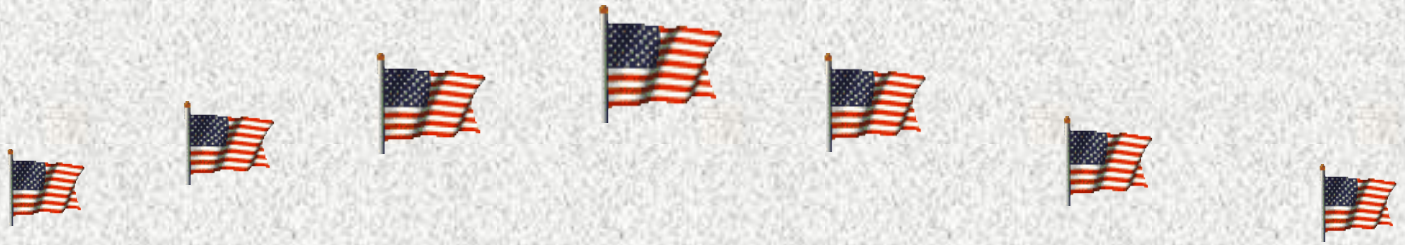
TRICARE Northeast

What Next?

GS Ad Hoc Web Page



DBA V Status – April 2002

- 1CHCS print menu options by files
- Meetings of the NCA All Functional Working Group Ad Hoc functional working group.
- Spread sheet reporting on ad hocs
- Fort Detrick Server

April-October 2002

- WRAMC server (Patrick Donovan)
- NARM (Dorian Channing)
- DATA (Harold Sherman)
- AHFG (Roberta Williams)
- CBTs (Patrick Donovan and Roger Tran)
- SOPs (Roberta Williams)
- Metrics (Roberta Williams)

Are we still needed today?

- Are print menu options and their management still needed?

  If so…

- Is the GS ad hoc web page still useful?

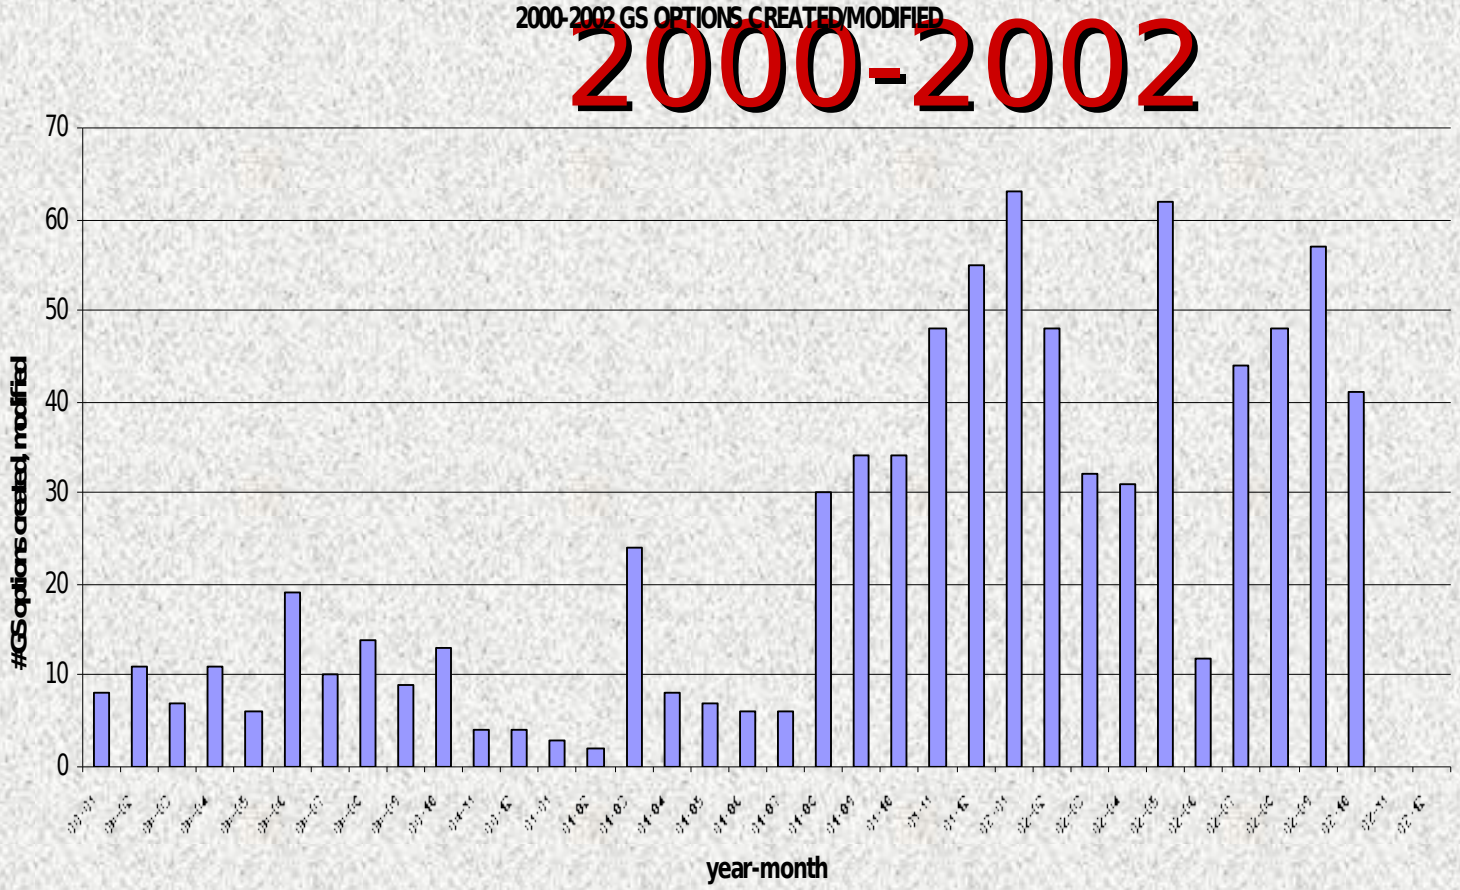
  If so…

- What would make it better and easier to use?

GS Ad Hoc Utilization today

- Web site hits
- NCA calls
- Region 1 calls
- CONUS calls
- OCONUS
- Continued requests for additional print menu options
- Users have requested instructions on how to use the site.
- Users have requested text search capability on the site.
- Local users have requested same access on orphan DMIS sites.

GS Options Created/Modified 2000-2002



Will Ad Hoc Reports Be Needed Tomorrow?

- CHCSII
- ICDB
- Easy CHCS
- CACHÉ
- Improved Interfaces
- TCPR
- Business objects

- Data quality validation.
- New business practices.
- New system requirements.
- Improved data quality and business practice tracking.
- User access tracking.
- System management.

Lessons Learned

- **CHCS is a mature system**
- **Ad Hocs were still being created on the mature CRSP prior to 1CHCS implementation**
- **Ad Hocs to support user requirements increased with the addition of PAD, LAB, PHR, RAD, MSA,… modules.**
- **Ad hoc creation peaks at the time of major changes.**

CONCLUSION: Some kind of ad hoc reporting ease of development to support users through changes in any new system envisioned will continue into the future.

Suggestions for Content Change:

- Specific page navigation road map(Fran Galu)
- Text search (Marianne Smargissi)
- SOPs for Access
- More management/less management?
- SOPs for analysis of each option
- Actual templates/output samples of options
- Specific file navigation techniques
- Cross reference fields for option speed
- Hot topic of the week

Proposed Web Improvements:

- Text search
- E-Form for ad hoc requests
- More browser compatible page formats
- No-cache format
-
- Hot topic of the week

Additional improvements ?: _____

Name and site (optional)

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____

(fill in the blanks and pass up for anonymous or ownership based discussion after the
